Recommended possible solutions: Please alter your search information using one of the following (in priority order).

1. Check to see if your information was entered correctly. Make sure you're using the correct spelling or location (street, city, state or zip).
2. Too much information was entered. A common mistake is being too specific. Start with broader range of search information then narrow down if needed.
 - a. Some listings in the database do not contain zip codes thus, resulting in listings not being found.
 - b. For cities with multiple zip codes, use the city instead of the zip code when possible or just search within the state.
 - c. **For a Person:** Use a partial (wildcard) last name instead of the full last name. Try removing the first name or only use the first initial. Also, the listing may be under a spouses' name, if applicable.
 - d. **For a Business:** You may need to alter the business name slightly. Only use the *key* identifying words in the business name.

3. Finally, the listing you're looking for is a non-
